

INVITATION TO TENDER

Supply Of Crane Trucks

The National Water Commission invites tenders from suitably qualified entities to supply Crane Trucks. Selection procedures will be restricted to companies who are currently registered with the National Contracts Commission (NCC) as suppliers of goods and services to the Government of Jamaica and have a valid Tax Compliance Certificate and are local dealers of new and newly manufactured Crane Trucks.

Interested companies are required to collect the tender documents from:

**THE PURCHASING MANAGER
NATIONAL WATER COMMISSION
18 OXFORD ROAD
KINGSTON 5
TEL: (876) 926-5825-7, FAX: (876) 929-1480**

Documents may be collected Monday to Friday between 9:00 a.m. and 4:00 p.m. starting July 1, 2009.

Interested Companies are required to pay a **non-refundable fee of J\$3,000.00** in Managers' Cheque or Cash when collecting documents.

Tenders must be submitted in plain, sealed envelope, clearly addressed:

**TENDER FOR THE SUPPLY OF CRANE TRUCKS
"THE TENDER BOX"
NATIONAL WATER COMMISSION
18 OXFORD ROAD
KINGSTON 5
JAMAICA WEST INDIES**

Tenders will be received up to 10:00 a.m. on **Thursday, July 30, 2009**, after which no further offers will be accepted. Opening of tenders will take place at 10:15 a.m. on the same day, in the Conference Room at 18 Oxford Road. Applicants are invited to send a representative to the opening.

A bid bond will be applicable and must accompany all tenders.

The "Tender Box" is located in the cashiers section, to the immediate left after entering the building at 18 Oxford Road.

**NO LATE OFFERS WILL BE ACCEPTED.
THE NWC IS NOT OBLIGED TO
ACCEPT THE LOWEST OR ANY BID.**

Water and Housing*

There are 4 basic ways to save water:-

Economize -

Be conscious of the amount of water you utilize and use less whenever you can.

Fix Leaks -

A leak of merely 1 drop per second, wastes 2,400 gallons per year! Most leaks are easy to repair with some basic know-how and a few simple tools.

Water-saving Devices -

There are a number of simple devices that can significantly reduce water usage. These include aerators, flow regulators and displacement devices.

Re-use Water -

Used water, such as at the kitchen sink and at the washstand, is often suitable for other purposes. If this "grey water" is used more than once it saves water for other uses.
