

**INFORMATION FOR PROSPECTIVE BIDDERS FOR
PROGRAM MANAGEMENT SERVICES**

WATER SUPPLY PARISH PLAN DOCUMENTS

NWC has prepared draft water supply and sewerage services plans for the fourteen parishes in Jamaica. These plans will provide the framework for NWC's Capital Works Program over the next five (5) years. Draft documents with these plans are posted on NWC's website.

While these documents will be updated in the coming days, they nevertheless give an indication of the scope of the works that NWC is contemplating to implement in order to improve the water supply in each parish. The information should be useful to enable prospective bidders to gauge the type and level of work that are required for the Program Management Services.
