**NWC SYSTEMS OUT OF SERVICE....
SECTIONS OF ST. CATHERINE & ST. MARY AFFECTED**

The National Water Commission wishes to advise customers who are served by the Colbeck Well and Sligoville Wells in St. Catherine that they may be experiencing low water pressure and in some instances no water conditions due to a broken main at Colbeck and mechanical problems affecting the Sligoville # 1 pump.

Areas that are affected by these disruptions include, all communities along the Sligoville main road including Jackson District, Colbeck, Avery and New Harbour Village.

In the meantime, the Charles Town Relift Station in St. Mary is out of service for mechanical repairs. Customers in Tree Hill, Rock Cottage, Ross Common, Value Bush and Hill Sixty will therefore experience no water conditions.

The National Water Commission apologizes for any inconvenience caused by these downtimes and is working assiduously to have the problems resolved in the shortest possible time.
