**CHANCERY HALL DEEPWELL AFFECTED BY MECHANICAL PROBLEMS
....WATER SUPPLY DISRUPTION**

The National Water Commission is advising that the Chancery Hall Deepwell in St. Andrew is currently out of operation due to mechanical problems being experienced with the pump at the facility.

Areas that are served by this facility including, **Havendale, Meadowbrook, Upper Molynes Road, Forrest Hills Gardens and Chancery Hall** may therefore have low water pressure or no water conditions.

The National Water Commission apologizes for any inconvenience caused and is currently working to resolve the problem so that water supply can be restored at the soonest possible time.
