EMERGENCY SHUT DOWN OF TULLOCH SPRINGS

The National Water Commission is advising that the **Tulloch Springs Water Supply System** in St. Catherine has been shut down for emergency repairs to a broken transmission main.

Customers served by this facility will therefore experience low water pressure or no water conditions until the reinstatement, which the Major Repairs Division estimates to be by 8:00pm this evening.

Areas that may be affected by the temporary closure of this system include, **Sections of Portmore, in St. Catherine, while in the corporate area, customers in Downtown Kingston, Molyne's Road and all roads leading off, Washington Boulevard and all roads leading off and Spanish Town Road** may experience disruption in their water supply.

The National Water Commission sincerely regrets any inconvenience caused and is making every effort to restore service at the soonest possible time.
