**WATER SUPPLY DISRUPTION
.....HARBOUR VIEW AREAS AFFECTED**

The National Water Commission wishes to advise customers on Harbour Drive and elevated sections of Harbour View in St Andrew that the disruption they are currently experiencing in their water supply is due to a break on a 16” transmission main on the Long Mountain Deepwell water supply system.

A team has been dispatched to begin the excavation works so that an assessment can be carried out on the extent of the damage. In the meantime, every attempt is being made to minimize the effects of this disruption.

The National Water Commission regrets any inconvenience caused to its valued customers and is making every effort to restore normal water supply at the soonest possible time.
