CONTINUED DISRUPTION FOR SOME RESIDENTS OF ST. CATHERINE

The National Water Commission is advising customers in the **White House Housing scheme, sections of Charlemont Housing Scheme and Orangefield in St. Catherine** that they will continue to experience low water pressure and no water conditions due to continued operational challenges being experienced at the Nutshell Relift Station in the parish.

The National Water Commission regrets any inconvenience caused and is working assiduously to restore normalcy to the supply at the soonest possible time.
