**HIGH TURBIDITY PROBLEM AFFECTS
PORTLAND WATER SUPPLY**

The NWC is advising customers in the **Windsor Castle area of Portland** that the water supply disruption they are currently experiencing is as a result of high turbidity (mud flow) affecting the Windsor Castle facility.

Areas affected are:

Windsor Castle, Salmon Town, Aldon, Hart Hill and New Land.

Restoration is expected as soon as the turbidity situation clears up.

The NWC regrets any inconvenience caused.
