### **LOW INFLOWS AFFECTING SECTIONS OF ST. JAMES**

The National Water Commission (NWC) wishes to advise customers in Blue Hole, Montpelier and Mt. Carey that the disruption currently being experienced is due to low inflows at the Blue Hole facility in St. James.

Regrettably, the water level continues to decrease, as the dry season progresses, further inhibiting the NWC's efforts to provide regular service. Nevertheless, the NWC is making concerted efforts to structurally adjust the intake works, in a bid to improve the water supply system.

The NWC assures its valued customers that it is sparing no effort to improve water supply to the affected communities, in the shortest possible time.

Customers may call the NWC toll free at 1 888 CALL NWC (1-888-225-5692) for further updates and assistance.
