**Mechanical Problems Disrupt Water Supply in Sections of St. Thomas & St. Mary**

The National Water Commission is advising customers who are served by the **Soho water supply system in St. Thomas** and the **Highgate pump in St. Mary** that the disruption they are experiencing in their water supply is due to mechanical problems at these facilities. These systems are currently out of operation in order to undertake the necessary repairs.

Areas affected by these disruptions include:

**Soho, Top Hill, Middleton, Sections of Spring Gardens, Sections of York Hill in St. Thomas and Highgate and surrounding areas in St. Mary.**

The Commission is reporting that it will be providing trucked water to these affected areas until water supply is restored.

The National Water Commission sincerely regrets any inconvenience caused to its valued customers and is making every effort to restore service at the earliest possible time.
