

## NWC WINS GREEN EXPO AWARDS

The National Water Commission (NWC) yesterday walked away with two of the most prestigious Green Turtle Awards offered by the Jamaica Conservation Development Trust (JCDD) for participation in its recently held Green Expo.

The National Water Commission's booth presentation was voted both the Most Attractive Booth and the both with the Most Effective Environmental Message at the four-day expo held from June 3-6 at the National Arena.

NWC's Corporate Public Relations Manager, Charles Buchanan, accepted the awards on behalf of the Commission.

"The NWC graciously accepts the awards and will continue its efforts to deliver the best possible quality of water and wastewater service while at the same assisting in the protection of the environment. Much effort and thought had gone into the NWC's booth presentation as we recognize the tremendous importance of effectively communicating a positive environmental message.

A significant part of what the NWC does is directly related to the state of the environment, and we need our customers to understand this and understand how their actions may affect the NWC's ability to serve them", Mr. Buchanan said.
