**HIGH TURBIDITY LEVELS IMPACTING WATER SUPPLY DISTRIBUTION
KING WESTON WATER FACILITY IN WEST RURAL ST. ANDREW**

The **National Water Commission** is reporting that high turbidity levels at the water source have forced the shutdown of operations at the **King Weston Water Facility in West Rural St. Andrew**.

Customers are being advised that the facility will be re-started as soon as conditions are favourable for water supply distribution.

Areas impacted: **Sections of Bucky Plain, Belmont, Grant Hill, Florence Hill, Lawrence Tavern, Mount Ogle, Matthew Road, Toms River, Cokely and Johnny Ridge.**

The National Water Commission apologises for any inconvenience caused and seeks to assure its valued customers that every effort will be made to restore water supply within the shortest possible time.
