HIGH TURBIDITY LEVELS IMPACT SPANISH TOWN AREAS

OLD HARBOUR ROAD, DUNBEHOLDEN AND ST JOHN'S COMMUNITIES AFFECTED

The National Water Commission is advising that high turbidity levels from the heavy rainfall have forced the overnight shutdown of operations at the Spanish Town Treatment Plant in St Catherine. This issue will result in water supply disruption (low pressures or no water conditions) to communities supplied by the plant.

Customers are being advised that once the conditions are favourable, the necessary remedial activities will be carried out to facilitate a re-start of operations and water supply distribution.

Areas affected: **Spanish Town, Westmore, Hampton Green, Lakemore Gdns, Newton Avenue, Nugent Street, McCoy's Land, Mayfair Mews, Brunswick Avenue, Job's Lane, White Water Meadows, Hartlands, McCooks Pen, Leiba Gdns, Sydenham Gdns, Wedge Wood Gardens, Willowdene H/S, Hopedale H/S, Old Harbour Main Road, Horizon Park, Sydenham Villa, Cromarty Grove H/S, Valdez Road, Homestead, Lucky Glades, Cross Road, Phoenix, Innswood Garden, Seville # 2 H/S, Salt Pond H/S, Dunbeholden H/S.**

The National Water Commission apologises for any inconvenience caused and seeks to assure its valued customers that every effort will be made to restore water supply within the shortest possible time.
