## **NWC WORKING TO RESTORE WATER SUPPLY TO PITFOUR, ST. JAMES AND SURROUNDING AREAS.**

The National Water Commission (NWC) is apologising to customers in Pitfour, St. James and neighbouring communities, for the ongoing water supply interruption. This disruption is due to the extraction of the water pump at the deep well facility for major repairs, which took place last Tuesday.

The NWC is pleased to announce that the necessary repairs have now been completed and installation of the repaired pump is scheduled to be finalised by Wednesday, September 18, 2024. Once installation is complete, normal water supply distribution will resume to the affected areas including **Pitfour, sections of Granville and sections of Retirement.**

In the interim, the NWC will continue to provide trucked water to customers who are encouraged to call the St. James Commercial Office at 876-952-7125, 876-952-7126 or 876-940-4447 to make a request.

The NWC regrets any inconvenience caused and appreciates the patience and understanding of its valued customers.
